## EMERGENCY EVACUATION PLAN

### **SCOPE**

In the event of an emergency, actions taken in the first few minutes are vital. An early warning to employees to evacuate, shelter in place, or go into lockdown can save lives. An accurate and comprehensive call for assistance to public emergency services will assist the dispatcher in sending the appropriate responders and equipment to the scene. The skills of an employee who has received training in first aid and CPR can save a person's life. An employee with knowledge of building and process systems can help control a leak and minimize environmental damage.

The Emergency Evacuation Plan is a dynamic document that will be updated at least quarterly or as necessary. As required by changes in employee status or other circumstances, training will be provided to designated floor leaders, section leaders, etc.

### **PURPOSE**

Imperial County Behavioral Health Services will be required to ensure the safety of all clients, employees, and visitors at all times. The purpose of this procedure is to: (1) ensure the safety of staff, clients, and visitors in the event of an emergency evacuation; and (2) evacuate all clients, staff, and visitors to a safe area in an organized and controlled manner; and (3) ensure that everyone is evacuated from the building to the designated meeting area as soon as possible.

### **CONTENT**

ICBHS Emergency Evacuation Plan will include the following components 12 key components:

#### **1. Activation:**

Who:

Evacuation procedures can be activated by order of the

1. County Executive Officer
2. Department Head
3. Immediate supervisor or his/her designate
4. Senior management employee at the location
5. Fire Officer-in-Charge

#### **2. When:**

The following conditions can create an emergency situation:

##### **A. Natural Hazards**

###### **Meteorological –**

Flooding, Dam/Levee Failure, Severe Thunderstorm (Wind, Rain, Lightning, Hail), Tornado, Windstorm, Hurricanes and Tropical Storms, Winter Storm (Snow/Ice)

###### **Geological –**

Earthquake, Tsunami, Landslide, Subsidence/Sinkhole, Volcano

###### **Biological –**

Pandemic Disease, Foodborne Illnesses

##### **B. Human Caused Hazards**

###### **Accidents –**

Workplace Accidents, Entrapment/Rescue (Machinery, Water, Confined Space, High Angle), Transportation Accidents (Motor Vehicle, Rail, Water, Air, Pipeline), Structural Failure/Collapse, Mechanical Breakdown.

**Intentional Acts –**

Labor Strike, Demonstrations, Civil Disturbance (Riot), Bomb Threat, Lost/Separated Person, Child Abduction, Kidnapping/Extortion, Hostage

Incident, Workplace Violence, Robbery, Sniper Incident, Terrorism (Chemical, Biological, Radiological, Nuclear, Explosives), Arson, Cyber/Information Technology (Malware Attack, Hacking, Fraud, Denial of Service, etc.)

**C. Technological Hazards**

**Information Technology –**

Loss of Connectivity, Hardware Failure, Lost/Corrupted Data, Application Failure

**D. Utility Outage –**

Communications, Electrical Power, Water, Gas, Steam, Heating/Ventilation/Air Conditioning, Pollution Control System, Sewage System.

**E. Fire/Explosion –**

Fire (Structure, Wildland), Explosion (Chemical, Gas, or Process failure)

**There are 3 Categories of Fire Evacuation:**

- Simultaneous Evacuation -
  - In the event of a fire the building's alarm system will alert all staff they can evacuate the building.
- Vertical or Horizontal Phased Evacuation -
  - In the event of an isolated fire where exits are blocked a horizontal or vertical evacuation to higher areas of a structure may be the only way to shelter individuals in a safe smoke room or compartment.
- Silent Alarm Evacuation -
  - This is a "silent evasions" that is initiated without the use of an alarm.

There are two main reasons why a silent evacuation might be used.

1. A sudden alarm can lead the evacuees to move toward the fire.
2. Silent evacuations can provide staff with information about the location and nature of the emergency, and evacuees can be moved in a managed manner.

**F. Hazardous Materials –**

Hazardous Material spill/release, Radiological Accident, Hazmat Incident off-site, Transportation Accidents, Nuclear Power Plant Incident, Natural Gas Leak Supply.

**G. Chain Interruption –**

Supplier Failure, Transportation Interruption

Staying indoors may be a safer option in some situations. An example would be the occurrence of extreme weather conditions or the presence of dangerous chemicals in the outside environment. If this is the case, a designated interior room by location where visitors, employees may gather.

### **3. A clear chain of command**

The Director is the designated Mental Health authority for the County of Imperial. In the event the Director is incapacitated or unable to respond the following line of succession will identify the director's designee in his absence.

	Name	Title	Work #	24 Hour #
Primary	Leticia Plancarte	Director	442-265-1604	760-996-3339
1 <sup>st</sup> Alternate:	Gabriela Jimenez	Assistant Director	442-265-7910	760-427-3249
2 <sup>nd</sup> Alternate:	Maria Ruiz	Deputy Director	442-265-1541	760-427-1132
3 <sup>rd</sup> Alternate:	Nancy Del Real	Deputy Director	442-265-1585	760-604-1975
Disaster Crisis Coordinator		Adolfo Estrada	442-265-1612	760-482-8070
Asst. Disaster Crisis Coordinator	Scott Dudley		442-265-7323	760-455-9034

### **4. Procedures for emergency evacuation**

When a building alarm sounds, or evacuation procedures are activated, everyone is required to evacuate the building. The evacuation process will be initiated by a continuous warning siren from the fire alarm.

In order to ensure that staff members are properly trained regarding the roles and responsibilities, emergency evacuation and fire drill exercises will be conducted.

#### **Staff Actions: Initial Emergency Notification**

- Close your door as you leave.
- If possible, know at least two escape routes from wherever you are.
- If smoke or flame is detected, and no alarm is sounding, alert others as you exit, keep low to the floor.
- During the evacuation, go to the nearest exit stairwell.
- Use stairway to exit the building.
- Leave the building immediately.
- Once outside, walk to designated Emergency Assembly Point (EAP).
- Keep streets and walkways clear for emergency vehicles and personnel.
- Electricity and gas should be turned off at the appropriate main switch whenever possible.
- Staff will carry out their duties and report immediately to the EAP to have their name checked against the staff list.

### **5. Assembly Evacuation Point**

The Assembly Evacuation Point (AEP) is a location where staff, visitors and clients can gather in the event of fire/leak/explosion and other emergency to ensure everyone is in a designated safe area. All persons missing during an evacuation will be reported to the Fire/Police via the AEP. Staff will take instruction from the BH Director, Disaster Crisis Coordinator or emergency response personnel with regards to missing clients, visitors, and/or staff. No person is to attempt to re-enter the building premises unless cleared by emergency response personnel or designee.

*\*A listing of all ICBHS Assembly Evacuation Points by location are attached to this plan.*

The following guidelines are to be followed:

- Staff is to assist Emergency Services personnel on request.

- The Fire/Police or Assembly Point Designee must give permission before anyone leaves the AEP.
- A secondary Emergency Evacuation Assembly Area will need to be considered on site in the event that toxic fumes or other hazardous situation affects the safety of people at the first assembly area.

## 6. Emergency Evacuation Responsibilities

There are specific duties assigned to key ICBHS staff during emergency evacuations:

ICBHS key staff are identified as:

- Staff who detects fire or emergency
- Designated Floor Leader
- Designated Section Leader/Assembly Point Designee
- 800mhz Primary Radio Staff
- Disaster Crisis Coordinator
- Staff/Clients/Visitors
- Behavioral Health Director

Responsibilities are as follows:

Position	Emergency Evacuation Responsibilities
Staff Who Detects Fire or emergency	Alert everyone in the area to begin evacuation
Staff Near a Fire Alarm	Depending on the emergency, pulls fire alarm, if possible.
Designated Floor Leader	Will lead staff, clients and visitors out the safest exit as indicated on the posted evacuation plan, ensuring this is done in a calm and orderly manner. Will evacuate Staff / Clients /Visitors with disabilities or limited mobility. Designated Floor Leader will also check each room within the facility to ensure that all staff, clients, and visitors have evacuated the facility.
Designated Section Leader/Assembly Point Designee	Will bring the Fire/Earthquake Attendance Roster to the AEP meeting location and take roll of the staff present at the time of the emergency. If staff/client/visitor not accounted for Section Leader is to notify the designated floor leader, Radio Primary Staff and the Disaster Crisis Coordinator.
800mhz Radio Primary Staff	Via the 800Mhz radio will report to Disaster Crisis Coordinator or BH Director all staff/client/visitor accounted and/or not accounted for.
Disaster Crisis Coordinator	Will notify the Behavioral Health Director and/or the County Executive Office of disaster and provide a status on staff by location.
Staff /Clients /Visitors	Will remain at meeting location and re-enter the facility only if the Fire Department official in charge at the scene indicates it is safe to do so.

<b>Behavioral Health Director/Designee</b>	Will authorize employee to go home or assign alternative work sites for employees.
<b>Disaster Crisis Coordinator</b>	Will complete the necessary incident report(s) and forward them over to the Behavioral Health Director.

\*\*\*See appendix A – *Emergency Response Teams by city and program. Document identifies Section and Floor leaders by name and location.*

### **ICBHS Assembly Evacuation Points by City and Location**

**THIS SPACE IS BLANK**

	<b>BRAWLEY</b>	<b>Programs</b>	<b>Assembly Point</b>
1	1401 B St.	Vista Sands Brawley	Staff will proceed to an open field to the west of the building
2	1535 Main St.	YAYA Anx. & Dprsn/MHSA FSP	Staff will use the exit doors located in the back of the building and proceed to the north facing parking lot located directly behind the building.
3	195 S. 9th St.	Team 6	Staff will proceed to the west parking lot.
4	205 Main St	Wellness Center	Staff will proceed to the north parking lot.
5	229 Main St.	Adult Anx. & Depression	Staff will proceed to the front parking area.
6		MHSA FSP	

	<b>CALEXICO</b>	<b>Programs</b>	<b>Assembly Point</b>
7	101 Hacienda Suite A, B, & C	YAYA /MHSA FSP	Staff will proceed to the front of the parking lot
		SUD Adolescent	
		FRC/Team 4	
8	1501 W. Imperial Ave.	Adlt. AnxDepCln/MHSA FSP	Staff will proceed to the parking north of the building.
9	2300 Rockwood Ave	KG Elmtry/Vista SandsCalexico	Staff will proceed to the west parking lot in front of school
10	25 East 3rd St.	SUD Adult Clinic	Staff will proceed to the north parking lot.

	<b>EL CENTRO</b>	<b>Programs</b>	<b>Assembly Point</b>
11	120 N. 8th St.	Children's Adm/Team 5	South parking lot.
12	1295 State St./Menville Bldg (1st & 2nd Floor)	YAYA EC FSP, A&D Team 1 and Team 2, Adm,vnl Srcvs, HOPE Program	1st and 2nd floor staff will use exit doors and proceed to the north parking area.
13	1530 S. Waterman	De Anza Elmtry Vista Sands El Centro	Staff proceeds to west of building
14	1699 Main St (Ste A)	MHSA -TESS, MHSA - CESS	South parking lot.
15	1001 Brighton	ALHP	TBA
16	202 N. 8th St./Main Adm Bldg.(3 flrs)	Administrition Information Systems MHTU	Staff from 2 <sup>nd</sup> and 3 <sup>rd</sup> Floor will proceed to the west/east parking lot; 1 <sup>st</sup> Floor, staff will proceed to the east parking lot. Triage with 51/50 clients: Will proceed to the far east parking lot away from general audience.
17	2695 S. 4th St (1st & 2nd floor)	Adlt. MHSA FSP, WLN Cntr, SUD Adlts, Adlt Adm, Trnspt	Staff from Suites A, E, and F will proceed to the west parking lot; Suites B, C, and D staff will proceed to the east parking lot.
18	313 Waterman, East & West	Accounting and Purchasing Adults Anx Depression	Staff will proceed to south parking lot behind the building.
19	315 Waterman	SUD Adolescents	
20	651 Wake Ave.	Team 12, CCT, Stff Dvlpmnt, Outreach	Staff will proceed to the East parking lot.
21	801 Broadway St	MHTU Adminstration	Staff will proceed to the south parking lot.

		<b>Programs</b>	<b>Assembly Point</b>
22	1209 Van Buren St. Suite #4	Salton City Outpatient Clinic	Staff will proceed to the parking lot

		<b>Programs</b>	<b>Assembly Point</b>
23	676 Baseline Rd Winterhaven	San Pasqual FRC (childrens/adults)	Staff will proceed to the west parking lot/dirt lot

## **7. Specific evacuation procedures for high-rise buildings**

Evacuation plans for each floor will be posted in a designated location. The posting will identify who will be responsible for getting people out, including floor leaders and section leaders as well diagrammed evacuation maps by floor and ICBHS Assembly Evacuation Points by location.

## **8. Assisting visitors and clients to evacuate**

During an evacuation, the Section Floor leader is responsible for guiding clients and visitors to the safest exit, as indicated on the evacuation plan, while maintaining calm and orderly conduct. Whenever necessary, the Section Floor Leader will assist staff, clients, and visitors with disabilities in evacuating the building. The Designated Floor Leader will also verify that all staff, clients, and visitors have evacuated each room within the facility.

If there are any non-employees in the building, the visitor log can be kept to keep track of them and check them off as they are located.

Clients in immediate danger should be moved first. They should follow a lead nurse into a safe area. Move patients who are closest to danger first (non-ambulatory and ambulatory).

## **9. Special equipment for emergency evacuation plan**

An Emergency Evacuation First Aid Kit will be set up in designated meeting assembly area if needed. It will be suitably labelled, in clear view and readily accessible.

**Primary First Aid Kit Location: 202 North 8<sup>th</sup> Street El Centro, Ca 92243**

**Backup First Aid Kit Location: 2695 South 4<sup>th</sup> Street El Centro, Ca 92243  
& 1535 Main Street, Brawley, Ca 92227**

### **Primary Team Kit: (Location: 202 North 8<sup>th</sup> Street El Centro, CA 2<sup>nd</sup> floor)**

- ✓ 1 set of office supplies, i.e., paper tablets, pens, pencils, markers, scissors, tape, and file folders, portable file storage box.
- ✓ 4 Shirts/ Vests/ Aprons ("Counselor printed on the back")
- ✓ 1 First Aid Kit (for personal use by team member)
- ✓ 4 sets of appropriate forms for staff to keep record of time/ mileage/ expenses
- ✓ 4 walkie talkie radios
- ✓ 1 set Batteries for equipment: Calculators, flashlights, walkie talkies
- ✓ 4 flashlights (1 per person)
- ✓ 1 set of County and State road maps (1 set per team)
- ✓ Waterless hand cleaner or sanitizer
- ✓ ICBHS telephone list/ cell phone list
- ✓ 4 Resource Directories (for use in local incidents only)
- ✓ 1 set of multi-topic informational brochures (100 copies per topic)
- ✓ 1 folding table and 4 folding chairs
- ✓ Ice Chest
- ✓ Personal protective equipment (gloves, spill kits, eye protection, gowns)
- ✓ Storage container(s) for all materials above

**Other ICBHS Resources:**

- ✓ Portable Shade Canopies
- ✓ Lab top computer (with wireless internet capability)
- ✓ Cell phone
- ✓ 800mghz Radio
- ✓ Dual Band 800mghrz Radio for designated to communicate with CEO Executive Office personnel
- ✓ County Vehicles

In some emergency situations, personal protective equipment (PPE) will be available. These include, but aren't limited to:

- ✓ Safety glasses, goggles, or face shields
- ✓ Hard hats and safety shoes
- ✓ Chemical suits, gloves, hoods, and boots
- ✓ Special body protection for abnormal environmental conditions

Make sure you have any required emergency equipment on-hand and well-stocked, and clearly mark storage locations of that equipment in your emergency evacuation plan.

**10. Post Incident**

After the incident has been resolved, the Fire/Rescue Department will release the building to the Facility Leadership (BH Director, Deputy Director, Behavioral Health Manager, or Supervisor, depending on the location). Upon re-entry, Facility Leadership will declare all clear, or all clear with conditions to returning staff, visitors, or clients and renter the building.

Employees should check for others with disabilities or other special needs on their way into the building, and assist them as much as possible.

**11. Scheduled Evacuation Drills**

Each fiscal year, ICBHS will conduct a minimum of four (4) evacuation drills. At least two of the four evacuation drills will be conducted with the assistance of the local fire department. The Emergency Response Coordinator will plan and coordinate evacuation drills with the approval and assistance of the BH Director or designee and Facility Leadership for each location.

In order to alter the behavior of employees, different scenarios will be created as part of the exercise. For example: an alternative route to the Emergency Evacuation Assembly Area could be blocked deliberately.

After each evacuation drill, a debriefing will be conducted and documented in order to gain feedback and determine the degree of success. Following each emergency evacuation drill, formal evaluation forms may be submitted as a feedback tool.

**12. Training**

Emergency Evacuation training will be a mandatory annual component of ICBHS' overall training program. Center for Clinical Training (CCT) at ICBHS will create, schedule, and maintain a training roster that includes the date, time, name, and title of employees attending the training.

All employees of the ICBHS will be provided with Emergency Evacuation training. The training will at the very least explain and demonstrate the evacuation process in

full detail to all employees. This training is intended to ensure that all ICBHS staff understand their individual responsibilities and the importance of ICBHS' emergency evacuation drills.

Emergency Evacuation training will be provided:

- Once the plan has been implemented.
- Hire a new employee.
- Whenever an employee's responsibilities or designated actions under the plan are changed.
- Every time a change is made to the plan.
- Introduce new equipment, materials, or processes into the workplace that affect evacuation routes; f
- Change the layout or design of the facility
- Revise or update your emergency procedures.
- At the time of the employee's orientation, the supervisor will review the Emergency Evacuation Plan at length with the employee in order to ensure that they are familiar with the portions of the plan that will be relevant to them in case of an emergency evacuation.
- 

Section and floor leaders will receive specific training. Topics covered in the training include, but are not limited to:

- Evacuate or shelter
  - carefully assess the emergency.
- Understand clearly mapped out evacuation procedures
  - locate the assembly evacuation point for your specific location
- Access to necessary safety equipment.
- Accounting for visitors, employees and clients On-Site.
  - ensure assistance to staff, clients, and visitors with disabilities or limited mobility in evacuating using evacuation wheelchairs, canes, and walkers

In addition the following will be part of the training process:

- The written plan will be kept at the workplace and made available for employee review.
- Evacuation plans for each floor will be posted in a designated location. The posting will identify who will be responsible for getting people out, including floor leaders and section leaders as well diagrammed evacuation maps by floor and ICBHS Assembly Evacuation Points by location.
- The written plan will be kept at the workplace and made available for employee review.

All staff training curriculums for the Emergency Evacuation Plan will be developed, updated and maintain by CCT. Additionally the Emergency Evacuation Plan will be updated annually
